ABOUT US

Established in Abu Dhabi in 2006, Gulf Arc General Contracting LLC is a certified and reputed contracting company delivering specialized technical and electromechanical services across the UAE. With a diversified trade license and ISO certifications, Gulf Arc has built a proven track record in providing Air Conditioning, Ventilation & Air Cooling Systems Installation and Maintenance, Technical Maintenance of Factories and Oil Installations, Onshore & Offshore Oil and Gas Fields and Facilities Services, Electromechanical Equipment Installation and Maintenance, Interior Fit-out Works, and General Building Maintenance and industrial civil works. In 2024, the management of Begorrah Electromechanical Works LLC (BEW), Dubai acquired Gulf Arc, further strengthening its operational excellence and expanding its regional capabilities. Gulf Arc had long-standing technical collaboration with BEW and is now integrated under its leadership, enabling both entities to offer seamless, scalable, and quality-engineered solutions across sectors.

CORE SERVICE DIVISIONS

MECHANICAL DIVISION

Piping & Structural Fabrication | Oilfield-Grade Installations | Marine & Onshore Expertise

Our Mechanical Division is the backbone of Gulf Arc's oil & gas operations. Staffed with experienced supervisors, certified welders, and pipe fitters, we specialize in **fabrication, erection, and installation** of piping systems and structural elements for demanding environments.

MECHANICAL DIVISION

- **Fabrication and Erection of Piping Systems**
- **Installation of Mechanical Equipment Packages**
- **Specialized Freezing and Hot Tapping Services**
- **Thermal Insulation and Cladding Works**
- **Minor Fabrication Works for the Marine Industry**

This division is powered by industry veterans with extensive experience in oil and gas, infrastructure, and heavy industries. It specializes in mechanical system fabrication and installation, offering precision-engineered solutions for piping networks, equipment installations, and custom steel structures.

Key services include fabrication and erection of carbon steel and stainless-steel pipelines, live system interventions such as hot tapping and pipeline freezing, installation of industrial mechanical packages (pumps, chillers, heat exchangers), as well as insulation and marine fabrication support. Each solution is engineered with safety, durability, and operational efficiency in mind.

MECHANICAL DIVISION

KEY SERVICES:

PIPE FABRICATION & INSTALLATION

- Fabrication of CS, SS and HDPE piping
- Spool fit-up, welding, NDT testing, hydro testing
- Onsite installation of utility, process, and fuel pipelines
- Flange management and bolt torquing

STEEL STRUCTURE FABRICATION

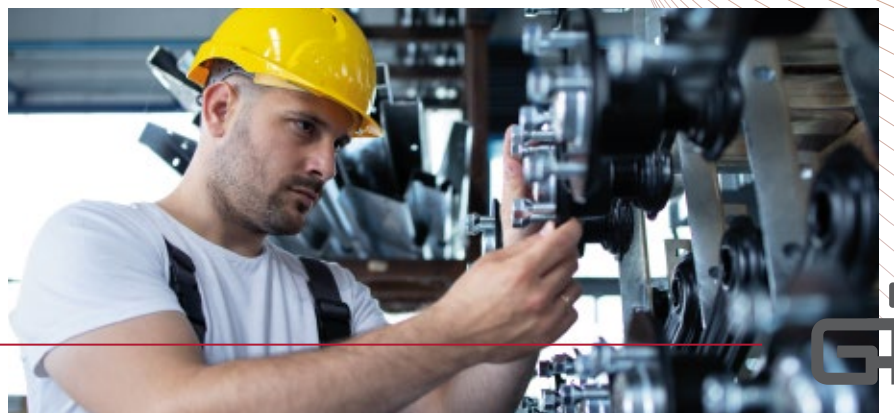

- Access platforms, skid packages, stairs & walkways
- structural components etc.

LIVE PLANT INTERVENTIONS (ON CHILLED WATER SYSTEMS)

- Pumps, chillers, pressure vessels
- Skid-mounted units, rigging & alignment

SPECIALIST MECHANICAL WORKS

- Hot and Cold Service Thermal Insulation works
- Aluminum & Stainless Steel Cladding works

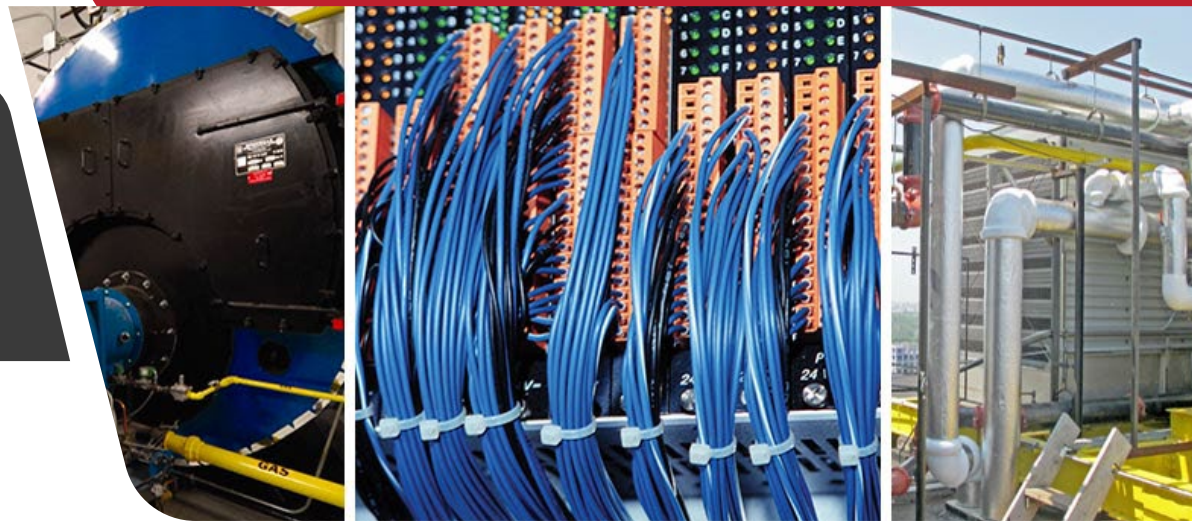

MEP DIVISION

(MECHANICAL, ELECTRICAL & PLUMBING)

Gulf Arc's MEP Division is equipped to deliver comprehensive Mechanical, Electrical, and Plumbing solutions for a variety of projects, including new developments, refurbishment contracts, and complex retrofitting works. We cater to commercial buildings, residential units, industrial facilities, and public infrastructure with full MEP design, execution, and maintenance services.

Our capabilities encompass advanced electrical designs, internal and external lighting setups, water supply and drainage systems, HVAC installations including Chilled Water, DX, and VRF systems, as well as fire suppression and alarm systems. We also offer Building Management System (BMS) integration and full-service Annual Maintenance Contracts (AMC) to ensure ongoing reliability of critical assets.

- **Electrical systems design, cabling, panel installations & lighting**
- **Plumbing and sanitary systems**
- **Firefighting systems, alarms, and sprinklers**
- **HVAC (Chilled Water, DX, VRF systems, ventilation & filtration)**
- **BMS (Building Management Systems)**
- **AMC and preventive maintenance services for MEP assets**

MEP Capabilities:

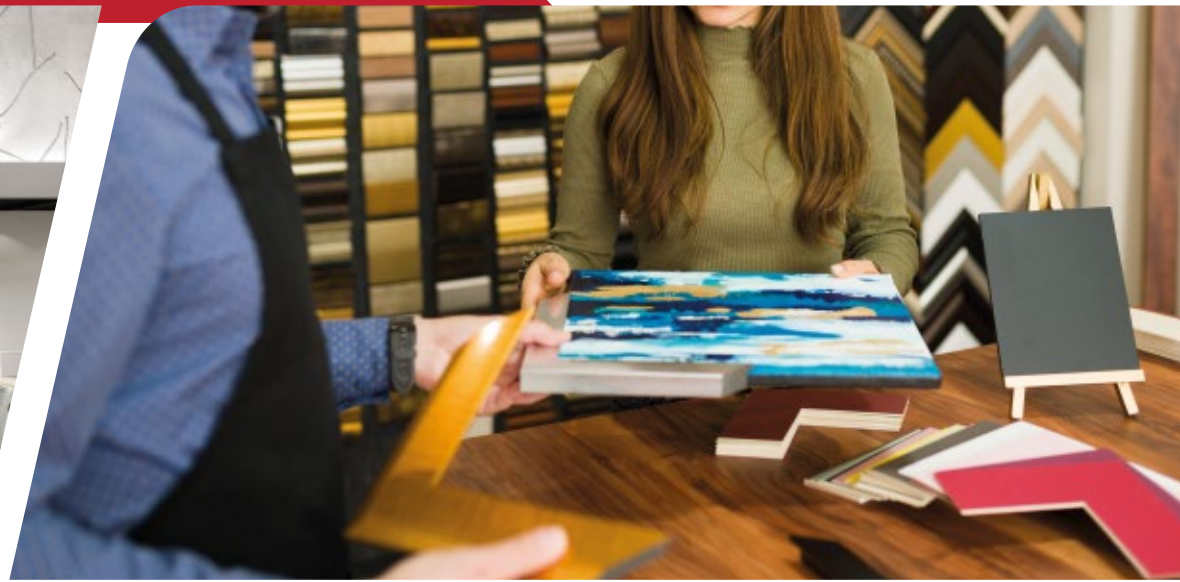

- **HVAC** – Chilled water, DX, VRF, ducted and non-ducted systems
- **Electrical Systems** – LV panels, DBs, power distribution, containment, earthing
- **Fire Safety** – Fire alarm, FM200, water sprinklers, and deluge systems
- **Plumbing & Drainage** – Water supply, pump rooms, sewage ejectors
- **Control & Automation** – Building Management Systems (BMS), ELV systems

Our Décor and Interior Fit-Out Division offers sophisticated design-build services to elevate the appeal and functionality of spaces. From commercial offices and malls to luxurious residential units, we deliver top-tier finishes with meticulous attention to detail and material quality. We specialize in glass partitions, custom enclosures, artistic wall finishes like epoxy marble, micro-topping, and textured painting. Our services also include false ceilings, raised flooring, and decorative cladding. We collaborate with designers and architects to provide tailored, trend-aligned interiors that reflect each client's brand and lifestyle.

DÉCOR & INTERIOR FIT-OUT DIVISION

- Glass partitioning systems
- False ceiling and raised flooring installations
- Feature wall treatments and decorative panels
- Artistic and decorative painting solutions
- floor and wall tile works

CIVIL DIVISION

(OIL & GAS AND INDUSTRIAL SECTORS)

- In-situ and precast pipe support works
- Culvert works for road crossings and drainagemanagement
- Foundation and trench works within live plant environments

The Civil Works Division focuses on enabling civil infrastructure within active industrial and oil & gas environments. Our teams are adept at executing projects with precision in restricted and operational sites, minimizing disruption and upholding strict safety protocols.

Core services include in-situ and precast foundations for pipe supports, construction of culverts for road and drainage systems, and execution of trenches and foundations inside live plants. Our capability to work seamlessly in high-risk zones makes us a reliable civil partner for industrial clients.

KEY PROJECTS AND CLIENTELE

Over the years, Gulf Arc—both independently and in association with BEW—has contributed to numerous landmark projects in the UAE. We cater to:

TEAM & MANAGEMENT

Gulf Arc operates under the dynamic leadership of Begorrah Electromechanical Works LLC, combining its Abu Dhabi legacy with Dubai's executional excellence. Our team comprises experienced engineers, technicians, and supervisors who bring decades of hands-on expertise in the construction and MEP industry. We assign project-dedicated teams for each job to ensure complete focus, quality execution, and timely completion.

HSE & SUSTAINABILITY

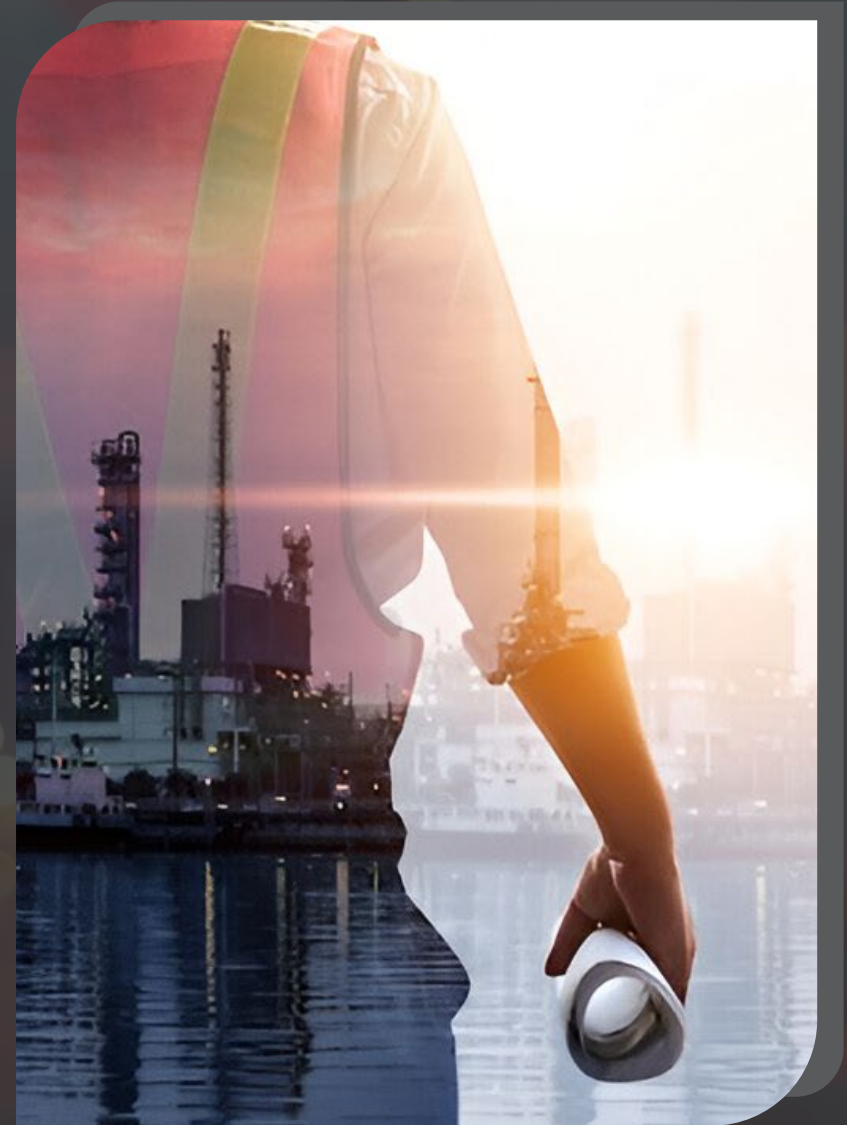

Gulf Arc is committed to implementing the highest Health, Safety, and Environmental standards. Our operations are aligned with **ISO 14001:2015 and ISO 45001:2018** frameworks to reduce environmental impact and ensure a safe work environment. We proactively promote green technologies and ensure strict adherence to HSE compliance at all project sites.

CERTIFICATIONS AND QUALITY STANDARDS

Gulf Arc General Contracting LLC proudly holds **ISO 9001:2015, ISO 14001:2015, and ISO 45001:2018** certifications. These accreditations reflect our unwavering commitment to quality, environmental responsibility, and occupational health and safety. Our operations are guided by a fully integrated QHSE management system, ensuring consistency, compliance, and continuous improvement
